## The CNHC Quality Mark

Did you know that only CNHC Registrants can use our quality mark? It incorporates the Professional Standards Authority (PSA) accreditation mark to show that they conform to national standards of practice in their work. This in turn enables members of the public, and those who commission the services of complementary healthcare practitioners, to choose with confidence qualified practitioners in their field.

If you are a Registrant it is important that you comply with the Terms of Use of the CNHC Quality Mark.
