

### Two tools to help build the evidence base for complementary therapies

Meaningful Measures Ltd license two tools MYMOP® and MYCaW® that many practitioners have found useful for gathering individualised data on outcomes in complementary therapies.

Non-profit-making organisations are charged an admin only fee of £51.20 per year. For sole practitioners the cost is just over £104 per year (including the admin fee). Prices for the digital portal will be announced shortly.

CNHC encourage practitioners to use them where possible, to continue to build the evidence base for complementary therapies.
